Bill

FYI, no surprises here. OIG did a very nice job of revising the final report to reflect our technical edits, and recharacterized the one recommendation in the draft report we disagreed with (establish MOU with CARB) to instead state "develop protocols for sharing information" with CARB. We agree with that and have already initiated the corrective action.

OIG further states that all recommendations are resolved. No final response to the report is required.

Thanks, Chris
